

Product-Information

Stone cleaner SP Low acid cleaning paste

Properties: Stone cleaner SP is a low acid paste, which removes softly, but very effective contaminations of the surface on cavernous mineral building materials such as brick, clinker and natural stone. Due to its paste characteristic it allows a clean and rational appliance, even on vertical surfaces.

Chem. condition: low acid acting paste, free of salt- and hydrofluoric acid

Dosage: pure

Directions for use : Apply Heidt & Schwarzfeld Stonecleaner SP equably on the dry surface by using a brush or inking roller. Humidification of the surface prior the cleaning process is only recommended at high ardor. Preferable mode of operation is starting at the bottom and finish on the top of the surface. The paste has to apeall for 5 – 30 minutes, but shouldn't dry out. Mechanical treatment with brush might be necessary on worse soilings. Afterwords the surfaces has to be cleaning with a pressure washer or steam cleaner till the washing water reacts PH-neutral.

For impregnation we recommend our impregnate 290 S.

Consumption: dependening on level of soiling approx. 10squaremeter/kg

Note: Don't use stone cleaner SP at temperatures under +5°C, direct insolation. Light- and non-ferrous metal, natural fiber, iron, aluminum, zink, stainless steal, plastics, wood and glass as well as plants have to be protected while cleaning. Stone cleaner SP is not usable on KS-masonry.

Please do absolutly attend the processing- and security recommendations written in the EÄU-regulations form.

Specifications :
Expiration min. 1 year, store dry
Ph-value 5
Contents Ammoniumbifluorid, Dispergatores, thickener

Size of trading unit: 30 kg

UN-Number : 1760
UN-Number : 12670072
Item-Number : 10010
